

## ABOUT THE SUN SILICATES GROUP

- It is the company's vision to supply technology driven products at competitive prices, while supplying hands-on customer focused technical services.
- The company manufactures industrial minerals, chemicals, fluxes and specialised process equipment.
- Continual improvement forms part of the company ethos ensuring internationally competitive products and services.

## BACKGROUND

- Although all the companies in the Sun Silicates group are separate legal entities, they are all managed from a central head office situated in Wadeville, Gauteng.
- The synergies between the companies are reinforced due to the centralised finance, administration, human capital, laboratory and technical support systems, Hereby creating value for the customers.
- The companies have been mostly developed from green fields and range in existence from approximately 12 years to recently founded.
- The companies are owned and managed by a team of engineers with many years of metallurgical, chemical and mechanical experience.

# WHERE TO FIND US

## Directions from the N17

1. Take exit 130 (M53/Osborn Road) towards Wadeville.
2. Turn onto Osborn Road towards the Consol Glass Factory and travel on Osborn Road for approximately 800m. You will pass 3 traffic lights before turning left onto Tedstone Road (this is the first left after the Caltex garage.)
3. Turn left onto Tedstone Road (Fry's Metals will be on the left) and continue on Tedstone Road for approximately 500m.
4. The Sun Silicates group will be on your left hand side just after Lothlorien Industrial Park (situated on the right). The entrance is a big blue gate.
